**One-day Hands on training on Isolation and Characterization of Microalgae**

**Report**

J.J. College of Arts and Science (Autonomous), Pudukkottai, Department of Botany conducted a one-day Hands on training on Isolation and Characterization on Thursday 31.03.2022 at 10.00 am. In this training course, Dr. B. Arulmurugan, Assistant Professor, Department of Botany, Vivekananda College of Arts and Science (Autonomous), Tiruchengode, delivered the keynote address. Earlier, the Head of the Department, Dr. M. Arumugam welcomed and introduced the special guest. The special guest in his speech explained about microalgae and its importance.

Also, he said in his speech that microalgae act as primary producers in the aquatic environment and produce organic matter, and act as oxygen producing organisms in the food chain. He also said that algae are characterized by their visible cell wall and hyphae. He also said that microalgae are classified according to their morphological structure. He also said in his speech that microalgae obtain large amounts of atmospheric oxygen through photosynthesis. Microalgae have a high growth rate and play an important role in biostatistic biomass synthesis. Chemicals such as oxidant fatty acids called carotenoids are found in high amounts. He pointed out that environmental factors such as particulate matter, climate, and acidity in sunlight, carbon-dioxide, and various mineral salts are changing. Demands play a major role in the production of fuel, human nutrition, pharmaceuticals and more cosmetic products. Later in the afternoon, the special guest showed exercises on how to isolate microalgae and identify them by their characteristics. The students (104) enthusiastically participated in this training course and cleared many doubts. Also, the students were asked for their feedback about the training. Finally, teachers and students from other colleges expressed their opinions about this exercise.

**One-day workshop on Herbarium Preparation and Management**  
**X.2.3.1.Participative Learning**

**Report:**

J.J. College of Arts and Science (Autonomous), Pudukkottai, on behalf of the Department of Botany, organized a one-day workshop on Herbarium Preparation and Management on Monday, 28th March 2022. Dr. N. Dhatchanamoorthy, Assistant Professor, The University of Trans-Disciplinary Health Sciences and Technology, Bangalore. participated as a special guest in this training workshop. At the beginning of the training workshop, the Head of the Department, Dr. M. Arumugam, introduced the special guest at the reception.

Special guest Dr. N. Datchanamoorthy in his speech also highlighted which countries in the world have the most protected dry plant. And he pointed out that the herbarium in India is the largest in Central National Herbarium, Calcutta. He also discussed the use of dry plant in various medicinal systems like Siddha, Ayurveda, Unani. The second exercise in the workshop demonstrated the equipment that can be used to prepare a herbarium. He also explained in great depth how to dry it.

Students not only participated with great interest but also raised many questions and clarified their doubts. The comments of the students who participated in the training workshop were recorded. At the end Dr. P. Raja, coordinator of the workshop proposed vote of thanks. Head of Department of Botany and Assistant Professors organized the workshop very well.
